

MVP

5500# 2WD GAS TRUCKS

ENGINE:

- Gas only, NO alcohol, E85, or fuel additives
- Naturally aspirated engines only
- MAX cfm carb, 4150/4160 Holley flange only. (NO Dominators, King Demons, SV1 or Split Carbs)
- MAX 478 cubic inches +2%
- If you win the class you will be subject to pump. If found to be legal the engine will be sealed and not subject to be pumped again unless the seal is found to be broken or tampered with.
- If the driver chooses not to pump they will then forfeit the purse money from the event back to the club and must then run exhibition from that point forward until proven to be legal.
- If found to be illegal the truck must forfeit purse money from the event back to the club and run exhibition from that point forward until it passes a pump test or is torn down and proven by the owner.
- All pumping will be done at the track.
- Blocks and Heads MUST be Cast Iron
- Aftermarket blocks and heads are allowed.
- No aluminum heads or blocks allowed.
- SFI approved harmonic balancer
- MUST use SFI approved flywheel
- Motor must be mounted within 6" of original V8 mounts.
- Must have a catch can for the radiator.
