Over 18" to 24"	16"
Over 24"	20"

Note: the Agility Committee shall determine dog's jump height based on skill level, training, age, health and safety of the dog. Determination shall be made by one week prior to the start of the fair.

Fair Classes & Descriptions – Standard classes and one game will be offered each year consisting of the following divisions: On-lead, Level 1, Level 2, and Level 3. Exhibitors competing in agility venues outside of 4-H should enter corresponding levels. Exhibitors and dogs BOTH must be proficient in class levels/descriptions entered. Example #1; you (exhibitor) are confident with sending your dog through the weave poles (appropriate command & timing), however, your dog is not able to successfully complete the weave poles. You would enter class Level 1 or lower. Example #2; Your dog is familiar and fully capable of performing the teeter, however you (exhibitor) are not confident in giving a command with proper timing which would ensure a safe contact off the teeter. For this example, you would enter Level 2 or lower. Intent of this rule is for the exhibitor and dog to show as a team and safely perform in their class. Dogs and handlers may remain in any class level for as long as they like. However, once a class placement has been earned, they cannot move back to a lower level class, unless health/safety reasons become a factor.

DOG RALLY CLASSES

RALLY RULES FOR HANCOCK COUNTY FAIR

Rally is a sport in which the dog and handler complete a course that has been designed by the judge. The judge tells the handler when to begin, and the dog and handler proceed at a brisk pace through a course of designated stations, 10-20 depending on level. The dog and handler team moves continuously at a brisk but normal pace with the dog under control at the handler's left side. After the judges "forward" order, the team is on its own to complete the entire sequence of numbered signs correctly. Unless otherwise specified in Rally Regulations, handlers are permitted to talk, praise, encourage, give additional commands and or signals using one or both arms, clap their hands, pat their legs or use any other verbal means of encouragement. The handler must move in a natural manner. The handler's arms need not be maintained in any particular position. At any time during the performance loud or harsh commands, intimidating signals, and touching the dog will be penalized.
